PROFESSIONAL SUMMARY

Full-Stack Software Developer with 3 years of experience in web application development. Proficient in Next.js, React.js, Angular, Node.js, TypeScript, JavaScript, HTML5, CSS3, GraphQL, and REST APIs. Demonstrated success delivering responsive and scalable applications for international clients across multiple industries. Experience in outsourcing (staffing) for multiple companies.

TECHNICAL SKILLS

Programming Languages	JavaScript, TypeScript, HTML5, CSS3
Frontend Frameworks	Next.js, React.js, Angular, Redux, React Query, Tailwind CSS, Bootstrap
Backend Technologies	Node.js, GraphQL, REST API
Development Tools	Git, VS Code, NPM, Webpack, Stripe

PROFESSIONAL EXPERIENCE

Software Developer	<i>August 2022 - Present</i>
Techware Lab Pvt Limited	Ernakulam, Kerala

- Developed and deployed full-stack web applications using Next.js, React.js, Angular, and Node.js for international clients across North America, UK, Europe, Middle East, Singapore, and Australia
- Implemented responsive user interfaces with TypeScript, HTML5, CSS3, Tailwind, and Bootstrap, improving user experience and engagement metrics
- Created and integrated REST APIs and GraphQL services for efficient data management and system integration
- Performed code reviews and implemented best practices for application security, performance optimization

PROJECT EXPERIENCE

Jasper Colin Research Tool (Outsourced Project)	<i>[November 2024 - Present]</i>
--	----------------------------------

Technologies: Next.js, React Query, Tailwind CSS, Stripe

Client: Enfin Technologies

- Served as a front-end developer on this outsourced project, delivering specialized Next.js expertise
- Implemented responsive user interfaces with Next.js and Tailwind CSS that enhanced user experience across devices
- Integrated Stripe payment processing for seamless subscription and payment management
- Utilized React Query and Redux for efficient state management and data fetching, improving performance

Infithra - HRMS (Outsourced Project)	<i>May 2024 - October 2024</i>
---	--------------------------------

Technologies: Angular, SCSS, Tailwind CSS

Client: KPI

- Worked as an outsourced developer to deliver a comprehensive Human Resource Management System
- Built responsive and intuitive user interfaces for employee performance monitoring and evaluation
- Implemented modules for attendance management, payroll processing, leave management, and onboarding

IndiaDataPortal - Data Visualization Platform (Outsourced Project)

August 2023 - December 2023

Technologies: Next.js, TypeScript, Tailwind CSS, REST API

Client: Indian School of Business

- Served as an outsourced developer to create an open-access portal providing agricultural and financial inclusion data for various State Governments in India
- Implemented responsive data visualization interfaces and interactive charts for complex government datasets
- Optimized application performance for handling large data sets with efficient data loading strategies

Techware Builder - Software Services Platform

January 2023 - May 2023

Technologies: Next.js, Angular, TypeScript, HTML5, CSS3

- Created web applications for a software development boutique offering multiple digital services
- Developed maintainable and scalable solutions for web development, digital marketing, and e-commerce portals
- Implemented responsive designs ensuring cross-browser compatibility and mobile-first approach

EDUCATION

Master in Computer Application (MCA)

2022

Indira Gandhi Open University

Bachelor in Computer Application (BCA)

2019

Al Ameen College, Ernakulam

CERTIFICATIONS

Front End Development Libraries

April 2025

freeCodeCamp

- Completed approximately 300 hours of coursework focusing on modern front-end libraries
- Gained proficiency in React, Redux, SASS, Bootstrap, and JavaScript libraries

SQL (Advanced)

April 2025

HackerRank

- Demonstrated advanced knowledge in complex SQL queries, database management, and optimization
- Validated skills in joins, subqueries, window functions, and advanced SQL techniques

Career Essentials in Generative AI

March 2024

Microsoft and LinkedIn Learning

- Completed 5+ hours of specialized training in Generative AI technologies and applications
- Acquired knowledge in key areas including Computer Ethics, Artificial Intelligence (AI), and Generative AI

ADDITIONAL INFORMATION

- Interests: Software Development, Web Technologies, Badminton, Traveling
- Available for relocation and remote work opportunities
- Languages known: English, Malayalam
- Familiar with AI tools like Chat GPT, Claude
